SPECIAL SESSION OF LEGISLATURE OPENS

POISON FOUND IN CRIPPEN'S BURIED VICTIM

Evidence Discovered That Operation Was Performed on Woman's Body.

LENEVE GIRL BRANDED AS DOCTOR'S AFFINITY

Prosecutor Says Belle Elmore and Husband Lived Separately Last Three Years.

LONDON, Sept. 6.—At the opening today of the trial of Dr. Hawley H. Crippen, who is charged with the murder of his wife, Belle Elmore, the prosecution announced that large quantities of poison had been found in the woman's body and that there were evidences that she had been subjected to an operation.

Ethel Clare Leneve, the doctor's typist, who accompanied him on his flight to Canada, also was brought to the bar today, but the Crown stated that it had been decided to confine the allegations against the girl to being an accessory after the act. This relieves Miss Leneve of any foreknowledge of the crime and is in line with the belief of her family and friends that she did not share Crippen's confidence up to the time that his wife dropped out of sight.

INTEREST IS INTENSE.

Interest in the Crippen case, which was intense during the search for the doctor, has by no means worn out. A large crowd gathered in the vicinity of the Bow Street Police Court when the trial was opened today.

Traverse Humphreys appeared for the public prosecutor's office, while Solicitor Arthur Newton represented Crippen. Humphreys made a long opening address, stating that the physician who made the post mortem examination of the mutilated parts unearthed in the cellar of the Crippen home at Hilldrop Crescent, Camden Road, had discovered the presence of large quantities of arsenic, a colorless liquid poison, and a detected evidence that an operation had been performed.

KNOWLEDGE OF SURGERY.

It had been known that the authorities had been working on the theory that Belle Elmore had been in the hands of one having at least a rude knowledge of surgery, and further, that she had been poisoned. The prosecutor spoke of Mrs. Crippen as being the victim of a crime by Crippen when referring to his wife. The two, the prosecutor continued, had occupied separate rooms for years. For at least three years, he said, Miss Leneve had been Crippen's mistress. In January Miss Leneve was feeling her position in regard to Crippen acutely, and at that time when she expressed considerable jealousy of Mrs. Crippen.

In a written statement made to Inspector Huxley, the investigation first opened, Crippen said Belle was living in the protection of another man when he married her in Jersey City. He also spoke of Bruce Miller, his alleged acquaintance with his wife while he was in America, and frequent threats which Belle had made to quit him and go with another man who occupied a better position in life.

STORY OF QUARREL.

Crippen's statement concluded with a story of the quarrel on the night of January 1, after Paul Martineau and Mrs. Miller, who had gone to the home with the Crippens, had left the house. During the quarrel, the doctor said his wife threatened to leave him on the following day. On returning from business on Friday, Crippen said, he found that his wife had gone. He took steps to prevent a scandal and fabricated the story of her going to her family and her death there. Counsel added that if he were to get Bruce Miller over here from Chicago he would be invited to attend the court in order that the prisoner's statements might be put to a test.

POISON IS FOUND.

Speaking of the post mortem, the prosecutor said Dr. Wilson had found more than a half grain of arsenic, one of the deadliest of poisons, and from the fact that such a quantity had been discovered after the parts

STATE EQUALIZING BOARD BRANDS PRESENT SYSTEM OF TAXATION AS FAILURE

Agrees to Statement That Injustice Has Been Done In Many Instances; Levies Reduced From 36.4 Cents to 35.3 Cents

SACRAMENTO, Sept. 6.—The State Board of Equalization at its meeting this morning reduced state tax levies from 36.4 cents of last year to 35.3 cents as the rate on \$100 valuation for the present year.

The board by a unanimous vote also declined to increase the assessment of the several counties which were cited to appear before them to show cause why the assessments as returned by the county assessors should not be increased.

The board at the same time agreed to a statement made by Alex Brown, the chairman of the organization, showing that the present system of state taxation was a failure and in many instances an injustice, and stating in effect that the method under the law of the State Board of Equalization in attempting to equalize taxes was a failure and that the law should be repealed and it would be a benefit to have the state board abolished.

The counties which had been cited to show cause why their assessments should not be increased were those of Alameda, Butte, Los Angeles, San Joaquin, San Francisco, Santa Cruz, San Luis Obispo and Santa Ana.

County Showing Satisfactory

Chairman Brown, in conversation with the representative of THE TRIBUNE, said that the assessments of Alameda county and the showing made in support of it by the county assessor before the board was satisfactory to the members of that organization.

The action of the board in declining to increase the assessments, especially in the southern counties, will have a beneficial effect upon the representatives of those counties who are now here attending the legislature in their attitude toward the bonding proposition of San Francisco and the state for the purpose of aiding the Panama-Pacific international exposition.

There is a well-defined sentiment here that if the assessment of the southern counties had been increased by the State Board of Equalization that the legislators of those counties would oppose the bonding of the state for the exposition in question.

In an interview Chairman Brown of the board says: "If constitutional amendment No. 1 did nothing more than abolish the State Board of Equalization's power to interfere with county valuations and place each county on a home rule revenue basis, it would be well worth adopting."

Turned Down Pullman Company

The board turned down the application of the Pullman Company for a reduction of assessment. It is understood that the application of the Pullman Company for a rehearing was merely a technical matter to indicate to the courts in the suit which the state has instituted for the collection of taxes from the car people that every means to obtain a reduction has been exhausted before payment of taxes was refused.

The assessment of the San Pedro & Salt Lake Railroad was reduced from \$16,827 to \$12,500 per mile because of a washout of more than 100 miles in Nevada.

The board reaches its valuation figures by calculating upon the gross earnings of the year previous. In this manner, according to the usual rule, the losses in earnings because of the washout would reduce the assessment of next year, and Controller Nye contended

SMOKES CIGAR, THEN KILLS SELF BY GAS

Wm. Fenton Deliberately Ends Life and Leaves Message to Woman.

RENTS HOTEL ROOM TO COMMIT SUICIDE

Had Only One Cent in Pocket and Last Thoughts were of Two Women.

The body of the suicide found at the Ruddy House this morning has been identified as that of William Fenton, an employee of the Griffin-Sheely Canning Company at Emeryville. The remains were identified at the morgue this afternoon by Mrs. Annie Hastings, who conducts the Hastings odging-house in Emeryville. She stated that Fenton had lodged at her house for some months and gave the information that he is 35 years of age and has been regularly employed, and that she knows no reason why he should commit suicide.

A card bearing the name John Tucker was found in the man's pocket and it was first thought that the suicide was Tucker.

With the simple message, "Drop Myrtle a line," penciled on a piece of paper, and with the cross of Christ, under which was the motto, "Thou art my hope," hanging in a picture frame above his humble bed, an unidentified man killed himself last night by taking gas at Ruddy's hotel, 840 Franklin street in his room.

Nothing but the initials in his hat, "W. F." and the name of the woman referred to in the message, Myrtle Bernum, Thurston, Cal., was left to indicate who the man might have been. The man had gone about the suicide with deliberation, indicated by the fact that he had smoked a cigar before he fastened a rubber tube to the gas jet and laid down in the bed and put the tube in his mouth. Everything about the room plainly indicated deliberation. The man was about 40 or 45 years old, had dark hair, a high forehead and weighed about 130 pounds. He was about five feet two inches tall. When found the man still had the rubber tube in his mouth.

STRANGER IN HOTEL.

Last night between 10 and 1 o'clock the man came to Ruddy's hotel, rented a room and retired. His actions did not indicate that he had been drinking nor that he had just recovered from a seizure. This morning Joseph Frauclet, the proprietor of the place, noted the odor of gas and after knocking on the door, broke the lock and discovered the prostrate form of his lodger.

Officer C. G. Gargandene was called by the landlord and the coroner's office notified. That there is a woman, or perhaps two, in the case is indicated by the three words scrawled on the corner of a slip of paper, "Myrtle, Annie, Bernum." As said, On the opposite side of the paper were the names Myrtle Bernum, Thurston, Cal., and John Tucker, 1558 Park street, in a corner and scarcely legible were the words, "Drop Myrtle a line."

HAD ONE LONE CENT.

In the man's pocket a lone cent piece was found. On another piece of paper were some figures, which looked as if he had been figuring up his finances. The note said, "Mrs. Hastings, \$1. Above it said, 'March 12, p. 87'."

Detective Will Quigley was called, but was unable to identify the man, although the face seemed familiar to him. A printed card bore the name of George Waldo Burgess, mail order specialist, P. O. Box 344. Another slip of paper bore the name of Dr. H. L. Webster. There is no Dr. H. L. Webster in the Oakland directory, and Dr. H. T. Webster could not remember anyone answering the suicide's description.

Hunted Man Jailed After a Wild Ride

SAN DIEGO, Sept. 6.—Charged with threatening to kill his child, J. F. Steiner of Chula Vista, south of San Diego, was arrested yesterday afternoon on information furnished by the local police force by his sister. The police had been watching for Steiner for some time. The complaint was sworn to last May by Steiner's wife, but she left this city and did not return until yesterday. Two detectives made the trip of 100 miles to Chula Vista in an automobile in eleven minutes. Steiner will be arraigned in justice court this afternoon.

Acting President of Chile Dies Suddenly

SANTIAGO, Chile, Sept. 6.—Vice-President Elias Fernandez, Albano, acting President of Chile since the death of President Montt, died suddenly today of heart failure.

FAIL TO FIND WOMAN DISAPPEARANCE Baffles

POLICE STILL HUNTING FOR FIANCEE OF COOK

The search for Miss Mabel Clayton, who mysteriously disappeared in San Francisco August 15, still continues, though no trace of her has been found which would either lead to her whereabouts or lead her fiancé, James Ruston, to believe that she had met with foul play.

The missing woman was formerly Mrs. G. B. Paxton, having secured a divorce from her former husband nearly two years ago. Since that time she has spent a portion of her time with her sister, Mrs. E. Camp, of 6549 Tremont street, this city. About the middle of last month Miss Clayton left the Camp home and stated that she was going to San Francisco. There she met Ruston, who is a cook in a Keaney street restaurant. After residing across the bay for a short time, where she went under the name of Burnett and several others she suddenly left and Ruston, becoming alarmed at her absence, yesterday notified the police.

When seen this morning, Mrs. Camp stated that she had not heard from her sister since she left and that she had no idea as to her whereabouts. The police will make an investigation on this side of the bay in an effort to locate the missing woman, who is believed by the San Francisco authorities to be in Oakland.

New Grand Jury Called for General Conference at Courthouse Tomorrow

Foreman F. W. Searby has issued a call to the members of the new Grand Jury for a session of the judicial body to be held tomorrow morning at the Court House, beginning at 10 o'clock. This meeting will mark the inauguration of the jury's active work and District Attorney Donahue explained this forenoon that the business of the session would be more in the nature of a general conference than anything else. The jury

will outline a program of procedure and decide upon the manner in which public business that is to be brought before it will be disposed of. "From the present outlook," said District Attorney Donahue, "tomorrow's session of the jury will be perfunctory and preliminary in a measure. I am not prepared to say at this time what any matter will be presented for investigation. That will depend entirely upon the pleasure of the Grand Jury."

GOT IT EVEN BY MAIL.

In making the investigation of the case it was found that the narcotics were sold not only to local customers, but that users of the drugs living in on side towns and villages were in the habit of writing to the pharmacy, specifying their "poison" and receiving it by the blank prescription notice.

The arrest of Wishart was the eighth in the campaign against the illicit sale of narcotics in Oakland. The crusade is being conducted under the supervision of the California State Association of Pharmacists and will be carried on in a State-wide fight against the violation of the statutes in this matter.

METHOD EMPLOYED.

When making the arrest the police gathered as evidence a batch of about forty blank prescriptions, signed by a well-known Oakland physician, the drug to be provided and the amount to be sold being left blank in the prescription.

Work in Teaching Folk Dances to Children of City to Be Exploited

Demonstration of the work of the playgrounds in teaching the children of the Oakland public schools folk dances and games will be made at a play festival Thursday afternoon at which women of the Oakland, Euclid, Home and Oakland New Century Clubs, and of the Bay Federation of Mothers' Clubs and Association of the Collegiate Alumnae will be the guests. The affair will be given under the auspices of the playground commission of Oakland at Bushrod Park at 3 p. m. Thursday. The Thursday program will prelude a big play festival for Admission Day, which will also be given at Bushrod Park playground on Saturday afternoon near Sixty-first street. This will be in the general public and will include drills, folk dances, exercises and games. It will commence in the morning, and the afternoon will be taken up with competitive games among teams from the various schools. At the Thursday afternoon festival the

MRS. CLAYTON.

PLAN TO VOTE BONDS FOR WORLD'S FAIR

Constitutional Amendment to Authorize San Francisco to Issue Securities

Special Session of State Legislature Convenes to Give Financial Aid to Plan

Five Million Dollars to Be Appropriated to Finance the Great Exposition

SACRAMENTO, Sept. 6.—In response to a call from Governor Gillett the legislature met in special session today to vote on an enactment permitting the issue of bonds for \$5,000,000 by the state of California and to permit the city and county of San Francisco to amend its charter so that a special election may be called to vote to bond the city for an additional \$5,000,000 for the purpose of financing an international exposition to be held in San Francisco in 1915 to celebrate the opening of the Panama canal.

In the senate and assembly the bond issue was submitted in the form of constitutional amendments, which must be ratified at the general state election next November.

It is understood that before the adjournment of the special session Governor Gillett will ask for the confirmation of several appointments made by him since the last session of the legislature.

SENATE OFFICIALS.

The Senate organized promptly this morning by electing Wolf of San Francisco president pro tem, Rev. Henry H. Wyman, chaplain; Lewis A. Hillborn, secretary, and J. Lewis Martin, sergeant-at-arms.

The following attaches were elected: Frank Mattison, assistant secretary; Theodore Lafayette, assistant minute clerk; H. B. Traversa, enrolling and engrossing clerk; R. Lyons, journal clerk; J. C. McCall, assistant sergeant-at-arms; J. P. Frazier, assistant sergeant-at-arms; L. A. Johnson, H. F. Emley, J. P. Dennis, gatekeepers; Avian Tachiana Jr. and Frank Branch, pages.

The Senate met with the Assembly at 11:15 to consider in joint session the proposed constitutional amendments, which had been introduced immediately after organization had been perfected.

ASSEMBLY ORGANIZES.

The Assembly was called to order this morning when Philip A. Stanton, Speaker, dropped his gavel with a bang at 10:30 o'clock and six-second Assemblymen out of eighty answered the roll call read by Assistant Chief Clerk Thomas B. Walker. A short time before noon was devoted to organizing the Assembly for the purpose of transacting business relating to the Panama-Pacific Exposition as provided for in the special call and proclamation issued by Governor Gillett. The Rev. W. C. Sherman, chaplain, offered prayer, after which the clerk was instructed to read the proclamation issued by the Governor.

MANY ATTACHES LEFT OUT.

A. M. Drew presented the name of attaches to serve for the session, the list represented only the principal officers necessary to conduct the business for the next few days, leaving out scores of employees who usually attend regular sessions when the law makers are in Sacramento. It was during the reading of the list that the first objection occurred. The name of Clio Lloyd, chief clerk of the Assembly, was left off the list of attaches who should receive pay. The point was raised that he would be paid for his services by San Francisco. This was objected to by R. L. Boardley who said that Lloyd should not be allowed to act free gratis or depend upon any body else for his pay. Grove L. Johnson said he had been informed that Lloyd's job as mayor of Santa Barbara would be jeopardized if he went upon the payroll of the state. Boardley and Johnson sparred without damage and the Drew resolution

VERDICT OF JURY MAKES ACQUITTAL DOUBLY SURE

Document Says Accused Is
"Not Guilty, Not Guilty,"
and It So Stands.

JUDGE THINKS PEERS
DESIRED TO EMPHASIZE

Albert Sarasohn Was Charged
With Breaking Into
Woman's House.

"We, the jury, find the defendant not guilty, not guilty," was the unusual verdict returned this forenoon in the criminal department of the Superior Court in the case against Albert B. Sarasohn, accused of burglary, and it was so recorded. Judge Brown remarked that undoubtedly the jury wanted to emphasize its belief in the innocence of the accused by giving the tale end of the verdict a "double hitch."

Sarasohn was accused of breaking into a building belonging to a Mrs. Quist but when she was called upon to testify she destroyed the prosecution's case by declaring that she had given Sarasohn permission to enter his way into the building. Judge Brown then abruptly terminated the trial and advised the jury to return a verdict of acquittal.

Stanford Edict Bars Students From Hazing

PAULO ALTO, Cal., Sept. 6.—An edict just issued by the faculty of Stanford University puts an end to all hazing of students in the future. The practice of "tubbing" and all interference with personal liberties are prohibited. The order is issued as a result of the recent clashes between the sophomores and freshmen classes of the college.

WOMAN'S BODY BURIED IN CRIPPEN'S CELLAR FOUND TO CONTAIN POISON

(Continued from Page 1)

had been buried for months, the physician was able to say that several grains must have been administered. On January 12, said Huxphrey, Crippen purchased five grains of hydrobromide of hyoscin, a poison of such character that the person to whom it was administered would become unconscious almost instantly, though life might remain for several hours.

PROFITED BY DEATH.

Counsel did not suggest the want of money as the motive for the crime, but did say that the disappearance of

Belle Elmore was a fortunate thing for Crippen from a monetary standpoint.

On January 2 the accused had pawned jewelry, for which he received \$400, and on another day he had pawned other jewels, receiving \$575. All the property pawned had been recognized as that of Mrs. Crippen. In conclusion, the prosecutor said he questioned whether Miss Leneve could have credited the extraordinary story of Mrs. Crippen's disappearance related by her husband.

SEVEN MURDERED IN ITALIAN CITY

Policeman's Family Wiped Out
by Assassins Who Wield
an Ax.

REGGIO, Italy, Sept. 6.—In the little town of Hellaro, eight miles south of this city on the coast of Messina, a policeman named Rovolino, his wife and five children were murdered early yesterday. At 2 o'clock this morning some of the townspeople of Hellaro were awakened by the terrified shrieking of a child, and rushing to the cottage occupied by the Rovolino family, found the 3-year-old daughter of the policeman, with her throat cut, before the open door of her home, screaming pitiously. Tenderly picking up the little child, the villagers carried her inside the house, where they were horrified to find the other members of the family lying dead, all having been terribly mutilated by blows from an ax.

BRITISH PROTEST NEW REGULATIONS

Conditions Imposed on Export
Textile Firms Rouse For-
eign Office.

LONDON, Sept. 6.—The British Foreign Office instructed Ambassador Bryce at Washington today to make a formal protest to the American State Department against certain conditions imposed on English export textile firms in the circular recently sent to its consuls here and on the continent, and to endeavor to have what are regarded as the most objectionable of the regulations modified.

RALLY TOMORROW NIGHT.
BERKELEY, Sept. 6.—The annual freshmen rally will be held by students of the university at the Greek theater tomorrow night. R. H. Moulton, chairman of the rally committee will preside. The four classes will be present.

Oaklander Is Given Office

DAN J. HALLAHAN, who has been elected vice-president of the State Association of Letter Carriers.

DAN J. HALLAHAN ELECTED BY POSTMEN

SACRAMENTO, Sept. 6.—The third biennial convention of the National Letter Carriers' Association met in this city yesterday and transacted all of the business to come before it, including the election of officers, settling insofar as it could settle the question whether San Francisco or Los Angeles should put in a claim for the national convention of 1933, by deciding in favor of San Francisco, adopting the code of by-laws adopted by the national convention for the several state organizations, and designating Santa Barbara as the place of the next biennial state convention.

The new officers are: President, Cornelius P. Pandey of Sacramento; vice-president, Dan J. Hallahan of Oakland; secretary, E. H. Osborn of Los Angeles; treasurer, J. C. Hixson of Berkeley.

DESERTS HUSBAND AND ASKS ARREST

Man Complains Wife Sold the
Furniture and Took
Child.

Two months of peace and quiet were permitted Hugo Chester, a painter of Grove and Oregon streets, Berkeley, after his wife had secretly sold all his belongings and had departed with their small year-old child, but his happiness terminated today when he was arrested and brought into court on a charge of failure to provide for the maintenance of his wife. Chester asked for time in which to set before Judge Mortimer Smith the peculiar conditions under which he found himself in prison.

Chester declares he is not given to the use of liquor and that he is an exemplary husband and father. His wife, he states, has caused all the trouble.

The couple have been married for about four years, and this is the second time Mrs. Chester has deserted her husband, according to the statement made to Judge Smith this morning.

"The reason I have failed to provide for my wife and child," explained Chester, "is that I have not known where they were. Last Fourth of July my wife was out all night. She did not tell me anything about what she had been doing. On July 5, while I was away from home, she came back and sold all the furniture, my clothes, pictures and all my other belongings, and departed before a returned home."

"I sought to find out what had become of her, but could discover nothing concerning her whereabouts. We had not been living happily, and I came to the conclusion that she would come back when she got ready. That was two months ago, and now the first thing I hear from her is that she has married another man and is now living with him. I am desperate for failure to provide for my wife and child, and I am asking for my belongings. It isn't fair, your honor."

Horse Stumbles and Rider Has Leg Broken

AT AMENDA, Sept. 6.—Frank Vaccarezza sustained a broken leg this morning when a horse which he was riding fell, pinning him underneath its weight. The accident occurred at Santa Clara avenue and Central street, at about 7:30 o'clock this morning. The ambulance was summoned and Vaccarezza, who is about 17 years old, was removed to his home at 1117 Sherman street. Dr. J. K. Hamilton was called.

Vaccarezza is accustomed to riding the horse which fell with him today and was holding the reins loosely when the horse stumbled. Before the rider could grasp the reins securely, the animal pitched forward and fell. Vaccarezza's right leg became pinned underneath the animal and it was found upon examination that the bone was broken above the ankle.

Committee Named to Meet President

BERKELEY, Sept. 6.—President Haines of the A. B. U. C. has appointed R. C. Jones, R. W. Cross and Miss Ruth Fuller and a committee to meet with President Wheeler of the university at the faculty committee for the purpose of discussing ways to make the university meetings as attractive as possible.

President Wheeler is not satisfied with the showing generally made at these meetings by the lower classes.

ASKS TO TRANSFER WORK ON THE QUAY WALL

Carterra Contracting Com-
pany Petitions to Assign
Contract.

INDIVIDUAL MEMBERS
OF BOARD IN FAVOR

Hansbrough Brothers May Be-
gin Work of Improve-
ment Soon.

After overcoming many obstacles and facing numerous vicissitudes the 2000-foot quay wall proposition for the improvement of the estuary waterfront seemed on the high road to actual achievement when new troubles appeared on the horizon which resulted today in the decision of the Carterra Contracting Company, which was awarded the contract for the work, requesting permission to assign its contract to another San Francisco firm. The other firm is Hansbrough Brothers, contractors, of 1023 Market street San Francisco, and is recognized as a corporation of some standing and reliability among contractors.

Although no formal action has been taken by the Board of Public Works of the City of Oakland in response to the request, the members of the board have given their individual approval to the plan, and it is virtually certain that the assignment of the contract from the Carterra Company to Hansbrough Brothers will be put through.

LET FOR \$222,000.
The contract is for 2000 feet of quay wall between Myrtle and Clay streets along First street and the estuary, and was let for \$222,000.

The sum bid by Carterra was so low as to amaze other contractors, being \$188,000 below that of the next lowest bidder, and \$100,000 below that of the City Engineer. On account of the low bid entered and the fear that Carterra would not be able to fulfill the contract, the Board of Public Works insisted upon a heavy bond, the certified bond for the company being \$21,000. This was recently attached by a San Francisco credit bureau, and it is believed that it is an account of financial difficulties that Carterra has been anxious to assign his contract to some other company.

GUARD AGAINST ERROR.

The city officials are taking care to guard against any technical error in making the assignment of contract, and have placed the matter in the hands of City Attorney John W. Stinson. The bond is being amended to insure against the failure of Carterra or the assigns of that company to fulfill contract.

It is thought by City Engineer Turner that the transfer of contract will not result in any delay in getting to work on the waterfront improvement. The erection of a stone building and machine shops will be started first, and orders being sent East for the machinery and equipment necessary for the work. The firm to which the contract is to be assigned, Hansbrough Brothers, is well known in San Francisco and has done work for the Federal Government at the Presidio and also work for the city of San Francisco.

MATTING STOLEN.

BERKELEY, Sept. 6.—Mrs. M. A. Sear, 1831 Fairview street, has reported to the police that 20 yards of matting, worth the value of \$5, has been stolen from her home.

CHARITY Women and the Work They Are Doing in That Line

Plan Chain of Hotels
For the Working Girl

NEW YORK, Sept. 6.—The most ambitious scheme yet for solving the problems of housing the New York working girls is to be put into operation shortly by Miss Virginia Potter, niece of the late Bishop Doane, and other influential New York women. Their plan contemplates the establishment of a chain of hotels for self-supporting young women. The charge will be from \$1.50 a week up. It is believed that the hotels can be made to pay their own way, although the cost of land, buildings and equipment will be obtained from subscriptions. The first of the hotels, costing \$75,000, will be opened next month.

Floating Hospital for Sick Babies and Mothers

PITTSBURGH, Pa., Sept. 6.—Women's charitable activities in Pittsburgh have come to light in the announcement today that a floating hospital is to be provided for sick babies and the fact that the intervention of women has just resulted in the transfer of juvenile prisoners from the jail to more commodious quarters in another building.

The steamer "Sunshine," with accommodations for 26 babies and their mothers, will ply the Ohio River Fall days through a donation by women's clubs and nurses and milk will be provided by the city.

Mrs. Jacob Wilmet, Lincoln, Ill., found her way back to perfect health. She writes: "I suffered with kidney trouble and backache and my appetite was very poor at times. A few weeks ago I got Foley Kidney Pills and gave them a fair trial. They gave me great relief, so continued to take them until I am again in perfect health." Webster's Drug Store, 10th and Washington streets.

VETERINARIANS IN CONCLAVE ACROSS BAY TODAY

Mayor McCarthy Welcomes
Large Attendance at
Palace Hotel.

DELEGATES COME FROM
ALL OVER THE COUNTRY

Tuberculosis Session to Be
Held Tomorrow; Papers
to Be Discussed.

SAN FRANCISCO, Sept. 6.—The annual convention of the American Veterinary Medical association opened its session at the Palace Hotel today, with a record-breaking attendance of veterinarians from all over the United States.

Mayor P. J. McCarthy of San Francisco opened the initial meeting with a welcoming address to the delegates, and the response was made by Dr. J. G. Rutherford, veterinary director general of Canada. After the addresses, the convention adjourned for the noon hour. The afternoon was given over to the report of committees.

IMPORTANT SESSION.

Tomorrow will be the most important session to be held during the nine days' convention and is termed the "tuberculosis session." It will include a discussion on methods employed in Europe to control bovine tuberculosis, by Dr. V. A. Moore of Ithaca, New York; "Bovine Tuberculosis Investigations at the University of California Farm," by Dr. C. M. Hurler of the State University; "Open Air Experiments With Tubercular Cattle," by Dr. Rutherford; "Immunization of Cattle Against Tuberculosis," by Doctor Muller and Schroeder of Washington, D. C.; "Legislation on Bovine Tuberculosis," by Dr. Reynolds of St. Paul, Minn.; reports of international committee for the study of methods to control bovine tuberculosis, "Artificial Immunization of Cattle Against Tuberculosis," Doctor Gilliland of Marietta, Penn., and Mr. E. S. Deader of Media, Penn.

Municipal Adornment in America.

An English technical journal says American cities have led in the development of public parks during the last twenty years. It says that the movement for park adornment in America does not harmonize with the popular idea that Americans are only eager to make money and have no taste for aesthetic beauty.

The British editor goes on to enumerate a great number of American cities which have or are developing park systems of vast extent and beauty at enormous cost. It instances St. Paul and the scheme by which the locality in which the State Capitol is situated has been transformed into an imposing and beautiful spot. Des Moines in Iowa is another city in which park improvements and a civic center are being developed. Milwaukee, Detroit, Cleveland, Indianapolis, St. Louis and many other minor cities are being made beautiful by landscape engineers and artists.

Kansas City a few years ago was one of the dirtiest and most unsightly cities in the United States. It has become a clean, beautiful city with a vast system of boulevards, parks and playgrounds. The cost of these improvements has been enormous. But the people of Kansas City believe that the money was well spent. They paid over nine million dollars for their boulevard system alone.

Southern cities like Memphis, Atlanta and New Orleans are also carrying out schemes in municipal adornment devised by men of technical training and artistic taste. Nothing like this is going on in Europe. A great deal of money is being spent in the principal European capitals, but the comprehensive schemes of municipal adornment that are making the homeliest of American cities beautiful are not apparent in the old world. There is not the same organization nor the same lavish expenditure of money. As the English journal quoted says, if Europe does not wake up and America continues to improve in the way it has during the past twenty years, the next generation will find in America the most attractive, the most healthy and the most beautiful of any group of cities in the world.

Oakland ought to keep step in this movement for municipal adornment.

A Fortunate Revelation.

A rude and obstreperous boor badgered Colonel Roosevelt at Fargo, North Dakota, as to who is paying the expenses of his present speaking tour. It is a pity that so distinguished a man as the ex-president cannot deliver public addresses without being insulted and impudently catechized by strangers.

But the incident was fortunate in one respect. It disclosed the fact that Colonel Roosevelt's expenses are being paid by the Outlook Magazine, of which the ex-president is an associate editor. Naturally the Outlook proprietors did not desire to advertise the fact that the ex-president on their staff had been sent on a speechmaking tour at their expense. We know now that they are men of great enterprise and public spirit. They are financing a speechmaking tour devoted to the moral elevation of politics.

No doubt the Colonel's tour will cost them a pretty penny, but it is money well spent. The publishers have the satisfaction of knowing that they have paid their money to improve social and political conditions in this country. They have attracted world-wide attention to their associate editor. The views he has expressed have gone to the uttermost parts of the earth. It is only fitting and proper that the Outlook's label should go along with them.

While the blackguard whose insulting questions brought out the statement that Colonel Roosevelt's expenses are being paid by the Outlook company deserves to be pilloried and put in the stocks, nevertheless he has done the public a service. He has brought to the publishers of the Outlook the admiration and warm appreciation of a great people. They are financing a great scheme of reform, a great apostle of political purity. The people will be delighted to learn that it is not E. H. Harriman who is putting up the money this time, nor the beef trust, nor the Standard Oil Company, nor the life insurance companies, but that a great agency of light and reform is making it possible for Colonel Roosevelt to lift his voice in twenty states in behalf of better government by honest men.

A Porient for Vapid Observers.

The political wisecracks of the press will draw all sorts of conclusions from the vote that will be cast in the Vermont election today. The size of the Republican majority will be seriously debated as expressive of the sentiment of the country. Somebody started the fad forty years ago, and human phonographs have echoed it ever since. There is no earthly reason why local sentiment in Vermont should be indicative of public sentiment throughout the country. It is not and never has been, although coincidences due to local conditions have, on several occasions, given color to the absurd superstition that the size of the Republican majority in Vermont is an index to party strength throughout the country in the election immediately following.

Vermont has never been carried by the Democrats. The State has always been strongly Federalist, Whig or Republican. Of late years the Republican majority has become so large and unwieldy that factionism has developed, while the Democrats have become so weakened and impotent as to have no effective organization. Sometimes the consciousness of their own strength and of Democratic weakness makes the Republicans apathetic and overconfident. A light vote may be polled and the Republican majority be pulled down by mere neglect and over-confidence. But sentiment in Vermont does not accurately reflect sentiment in Massachusetts, let alone sentiment in Ohio, Indiana, Illinois, Missouri and Wisconsin. Still we will be treated to the same old homilies after this election that have been handed out for more than a generation.

The Policy of Proscription.

According to the San Francisco papers, the executive committee of the Lincoln-Roosevelt League held a secret meeting at which it was decided that no person not actively associated with the Lincoln-Roosevelt League in the late primary campaign will be permitted to serve on the State committee or take any prominent part in the management of Mr. Johnson's campaign. The members of that committee were appointed by Chester H. Rowell. They have usually done precisely what Mr. Rowell desired them to do. A few of them, at times, have disagreed with Mr. Rowell's views, but the majority has always reflected his will and ratified his program. Therefore we are justified in assuming that the air-tight arrangement framed up for the State convention is the fruit of Mr. Rowell's genius and foresight.

But what are Republicans who have not actively identified

LEFT BEHIND

—ST. LOUIS GLOBE-DEMOCRAT.

themselves with the Lincoln-Roosevelt League or participated in its activities to do in this campaign? It seems that they are to be proscribed and regarded as unworthy of trust. They have been charged by Mr. Rowell and his coadjutors with aiding and abetting political corruption, if not actively sharing in the unholy prostitution of political power. They are now being virtually told that they must not expect to be treated as honest and trustworthy citizens. They are, so to speak, on the stool of repentance, or a sould be. Until their time of probation is past, they must wear sackcloth and ashes and assume a mien of humility.

Perhaps this is good policy. And then, again, it may not be the highest form of political wisdom. We dismiss the question of fair play. But somebody will have to get the votes of the vast army of Republicans who are thus spurned and repudiated. Doubtless, Mr. Johnson can do without them, or feels that it would be beneath his dignity to treat them with consideration or upon the theory that they are honest and patriotic. However, it would seem more wise not to kick a man after you have beaten him. Magnanimity has ever been held up as the greatest and wisest virtue of the victor. But in the present instance it appears that magnanimity, let alone concession, is a word not included in the lexicon of the Lincoln-Roosevelt League.

The machine which Mr. Rowell is perfecting is a more ruthless and proscriptive one than ever before attempted to rule politics in California. No other combination ever tried to proscribe fully one-half the party voters or treated them virtually as criminals. Again we say, this may be political wisdom. But we doubt it.

WEDDING SUPERSTITIONS

Though popular superstitions may lack the force of reason or reasonable explanation, they may have an origin, and this has formed the basis of quite an interesting book by T. Sharper Knowlton.

The question of the wedding ring and why it should be placed on the fourth finger of the left hand he traces back to the writer in the British Apollo 1708.

"There is nothing more in this," it is stated, "than that the custom was handed down to the present age from the practice of our ancestors, who found the left hand more convenient for such ornaments than the right in the case of the less employed; for the same reason they chose the fourth finger, which is not only less than either of the rest, but is more capable of preserving a ring from bruises, having this one quality peculiar to itself, that it cannot be extended but in company with some other finger, whereas the rest may be simply stretched to their full length and straightness."

The old-fashioned notion that a shoe should bring luck at a wedding is another superstition curious to explain. London Daily Mail.

PREPARATORY SCHOOL REFORM

The too common and too well founded complaint of what might be described as lack of culture or even lack of intellectual development among many college graduates receives indirectly some suggestive and we should hope helpful attention in the recent report of the Yale alumni advisory board to the corporation of that university "on the stimulation of intellectual activity among undergraduates." At first blush that portentous subject might seem paradoxical or superfluous, as it were "on teaching fishes to swim" or "on teaching birds to fly."

The theoretical supposition is that the stimulation of intellectual activity among its students is the chief function and indispensable raison d'être of the college. But the grounds for the complaint to which we have referred, and the notorious circumstance that not a few young men feel as the report before us says, "that work may as well be suspended during the college year, except so far as is necessary to enable them to stay in," are ample justification for the investigation and the recommendations which the Yale advisory board has made.

We are inclined to think that amid many valuable suggestions in the report the most valuable is the last—namely, that there should be a pretty radical reform of the so-called preparatory school system. One such reform would be a reduction in the quantity, though of

Aiding the Unfortunate

By REV. O. ST. JOHN SCOTT,
Rector St. Andrew's Church.

"Jesus took him by the hand, and lifted him up."—St. Matthew, 9:27.

The Savior had just left the mountain summit, where in the presence of three disciples, he was transfigured, and spoke with glorified Moses and Elias. Then he came to the foot of the mountain and healed an idiot boy. A few minutes before, in the golden clouds of Heavenly communion, he had been in the dead-level contact with earthly suffering. Surely the sequence symbolizes Christ's character—never too much wrapped up in God to be of service to man. He looks, after the body as well as the soul! What to do with the man who is down is answered in the cure of the idiot, after a presence in the courts of the most High. We are to give the oppressed neighbor the fraternal hand. We are to prove our Christianity in terms of real friendship.

The Church has forgotten that part of her teaching in the past. The welfare of the soul was her only concern. She forgot about her social duty to man, that he has a body to consider as well as a soul to save. She does not forget that today. She is doing the best she can. Her faith lies in not knowing very well how to go about her social duty. Few know. The Church, Associated Churches, and other Social Aids, spend money to show men how to help themselves. That is laudable, but it is as foolish as to send a man to the torrid zone with a pair of skates. He might make artificial ice, but that couldn't last long. Artificial methods either solve social questions for a few minutes or not at all. One result is as bad as the other. Men may have tools, but they want tools. Equipment without opportunity is worthless. Opportunity in social terms is a climate where one can live always, and use his tools.

The Church would improve on Herself if she used her dollars to get rid of an economic situation, which feeds five people and two children with five thousand loaves and fishes; and further, that cause which will institute the Divine Economy which feeds five thousand with five loaves and two small fishes. Where there is enough for all, all should have enough. It is part of the Church's duty to help that cause along in the common-sense way, by going straight to the foot of the hill—that is, by going straight to the root of the matter. Help the Soul. Heal the Body. Christ prayed to the Father. Then went straight to a diseased body and healed it.

Again the individual Christian may show his Christianity, of which the extended hand is the symbol, by the self-surrender of a kind word, a bright smile, a genuine handshake, a real desire to make someone else happy, and to ease his burdens. We are not to dream always on the hill-top of prayer. We should go to the foot in practice. Give the man the

FINDING A FLAW

The trouble with the people who try to simplify things is that they generally achieve results quite different from those intended.

The simplified spelling scheme, which Colonel Roosevelt has at present put aside in order the better to complicate certain other things, was anything but simple. One depending upon the new style of spelling would have had to possess a memory of an infantile kind ever to have got half his words right, according to the new rules.

Now comes a specimen of a universal language, which has claimed simplicity among its other virtues.

A convention of Esperantists attended a ball game in Washington not long ago, and, true to their convictions, they carried their fair into the grandstand with them. We dare say there were no Esperantists in the bleachers.

When the umpire gave a decision contrary to their sentiment in the matter they are said to have hooted "Ho! Vrabista decidante!"

The words "Ho! Vrabista decidante!" may be spoken as specifically as, for example, "The decision of the gentleman occupying a post immediately behind the player in a snarling posture exposes a defective reasoning faculty, or an obnoxious vision."

But it is much easier to say "Kil him!" than either of the phrases we have quoted.

Moreover, we cannot see that anything is gained in the following series of words, all having to do with the national game: Strike; frappa; bat; batto; glove; ganto; player; ludanto; fly ball; fungim-pilko; baseball; pilko.

We fear the Esperantists will have to "guess again." If they wish to obtain a genuine following. —St. Louis Times.

WHISKY BATH CURE

Mr. Rockefeller, it is reported, has derived great benefit from whisky baths taken first thing in the morning, and with the object of ascertaining whether the whisky bath was a rare American luxury or whether it was known or likely to become popular in England, a Fall Mail Gazette representative approached several prominent medical men.

In each case there was a disposition to accord Cousin Jonathan the full credit for this singular idea. Those who cherish testotal principles will learn, possibly with relief, that at present, at any rate, there are no indications of England adopting this peculiar ante-breakfast habit.

"I have never heard of a whisky bath being prescribed for any patient in England," remarked one medical gentleman. "We use many spirit lotions, which are applied for reducing swellings. Alcohol

in that form can, after all, have only a local effect. The bath treatment is common, too, for febrile conditions, such as typhoid and diseases of the skin, but only water is used. I have heard of milk baths, but a whisky bath is something quite new, and," he added, "it must be introduced mainly to please the vanity of an illustrious American patient."

Another medical authority confirmed the foregoing remarks. "Surgeons in Germany," he pointed out, "use alcohol in fairly large quantities for washing their hands, chiefly as a disinfectant in operations, but I have neither seen nor heard of a whisky bath. That is what a speaker at the doctor's congress had in his mind the other day when he told the National Temperance Union that German doctors were good friends of temperance, because they used alcohol outside and not inside." —Fall Mail Gazette.

LIBRARY CIRCULATION

At regular intervals the heads of our libraries give out statistics of the number of times the important works under their care are called for. As regards fiction these figures are of no particular interest or importance, except as indications of the enduring popularity of the masters of that form of literary art. It is when we come to more serious work, the literature of knowledge, that we are tempted to rejoice over the spread of a serious desire for information indicated by these library reports.

It is just here, however, that these statistics, while assuming significance, become in reality utterly untrustworthy. If not positively misleading. A book "taken out" and a book read and inwardly digested are two entirely different things. In certain sections of our large cities, especially where, according to these statistics the immigrant is industriously acquiring information, it is more than likely that the enormously frequent calls for serious books indicate not profitable study, but ill directed ambition entirely untrained to digest. The promptness with which works of this class are usually returned is a firm clue to the true state of affairs. —New York Tribune.

PLUCKY KANSAS LAD

Three years ago when Jesse MacFarland Owens of Parsons, Kas., died, he left two sons. The youngest was but 11 years old.

All he inherited was an abundance of pluck, determination and honesty. For three years he has taken care of himself, seen practically every city of prominence in the country and is today the youngest sailor out of Boston. Jesse MacFarland Owens, Jr., is proud of the fact that he is an apprentice aboard the Prince George.

"I like the ocean," said the boy. His dark eyes twinkled and a roguish smile played about his features as he related his experiences of the past three years.

"But I guess my luck is turning," continued Jesse. "My first experience on the steamers was on the Great Lakes. I didn't like the lakes, so made up my mind to come to Boston, and here I am.

"Part of the way from Detroit I rode on the bumpers. I stole rides, but everybody seemed kind to me. I just walked down here to the docks and got the job that I wanted. The captain and everybody is kind to me. I am going to stick and I'll bet I won't always be a stow-away."

"It would like it much better if I had a mother to see when we got ashore. She died when I was only a year old,

and the only relative I have is a brother. He is 23 years old, but I don't know where he is."

Before Jesse's father died he told his son that to succeed a man must be honest and truthful. Jesse says that he finds that this is true. —The Boston Traveler.

TIMELY TOPICS

Money sent home by Hungarians in America, estimated at some \$28,000,000 in 1909, is declared by the Royal Emigration Commission to fall far behind making up for the loss of population, which in that year amounted to 130,000 out of a population of approximately 20,000,000.

There is hope for the poets. They can write humorous verses, like Nixon Waterman's, and collect \$5000 in real money year after year. Or they can write poetical plays, like Mr. Mackaye's or Miss Penbody's, and win both fame and fortune. The one thing they absolutely must do, says the Boston Transcript, on pain of holes in their boots and hash three times a day, is to write poetry that must stand on its own legs.

20 YEARS AGO IN OAKLAND

The residents of the town of Niles are wildly excited today, over a daring attempt of robbers to murder William Snyder, last evening. Excitement runs so high that if the men are captured, they stand little chance of having a stand in court. Snyder was counting his day's cash, last night, when he was commanded to throw up his hands by two men who had entered his place of business. He refused and struck the pistol leveled at him with a sack of silver coins. The weapon was discharged and the ball just missed his head. He was fired at a second time and escaped injury, and then the two robbers proceeded to beat him. When he was unconscious the men escaped, taking with them \$300 in cash. A posse is searching for them.

In accordance with the instructions of the town trustees, Town Attorney Robinson, has drawn up a petition calling on the Board of Trustees of the Town of Berkeley to take steps to incorporate the place as a city, under the laws of the State of California. Much interest is being manifested over the debate Friday of Miss Bosse Hall, who has returned to Oakland, cause in need, the ungodly hand of Christian friendship. Listen to God's voice calling to the Mountain! It is that you may see His finger pointing down to the plain, the dead-level of practical things, the proper sphere of Christian service.

after studying pianoforte at Berlin, with Barth.

The Native Sons of Oakland and Alameda generally, have about completed arrangements for participating in the Admission Day celebration in San Francisco. Varney Gaskill is grand marshal and the following parlors will take part:

Oakland, No. 50; Piedmont, No. 120; Alameda, No. 47; Halcyon, No. 158; Brooklyn, No. 111; Eden, No. 115; Los Positas, of Livermore and Wisteria of Alvarado. The celebration committee consists of J. H. Ames, H. P. Carlton, Myron A. Whidden, H. D. Oshion, E. F. Harris, George H. Mason and F. J. Remillard.

At a meeting of the Alameda Board of Health, last evening, Health Officer McLean, reported 95 deaths for the month of August. He also reported sixteen cases of diphtheria and four cases of scarlet fever.

Almost 500,000 pieces of mail matter were handled by the Oakland carriers during the month of August, according to a report rendered to the government. The gain over July is 21,000 pieces.

The regents of the State University, have accepted an offer of Thomas Edison, to equip Lick Observatory with a complete electric lighting outfit. Professor Martin Kellogg will act as president of the university when the institution opens.

There's more to a suit of clothes than cloth

The English wear clothes of most excellent quality, but of poor cut. The French, on the other hand, wear clothes of pronounced style, but of poor stuff. And there you are!

The Americans are the best dressed men in the world—for American tailors combine the best of styles and materials with comfort and common sense.

We are adepts at this! The man who wears a **WOOD MADE-TO-ORDER-SUIT** is always certain he is well dressed—therefore confident, content, comfortable—and more apt to be successful.

A man works better when he feels that he has everybody's respect, and knows he has his own. Nothing is so conducive to this satisfactory feeling as the wearing of good clothes—like our

Washington and Eleventh Streets

HARMONY KEYNOTE OF REPUBLICAN CONVENTION MEETING ACROSS BAY

Delegates Assemble in San Francisco and Great Gathering Is Called to Order by Chairman

SAN FRANCISCO, Sept. 6.—With the accompaniment of cheers and handclaps from a large crowd of delegates which assembled this afternoon in Lyric hall, the Republican State convention was opened amidst a burst of enthusiasm at 2:30 o'clock.

The major portion of the 425 delegates from the several counties of the State were in attendance, and after they had found their seats Philip S. Teller, president of the State central committee, brought the convention to order.

CONVENTION IS OPENED.

The military band rendered "The Star-Spangled Banner" while the assemblage stood, following with a lively ovation. Chairman Teller then made a few introductory remarks.

"We are called here by the provisions of the new primary law," he began, "to promulgate a platform for our candidates to go forth upon to seek the votes of the people at the next election. I trust that at the coming contest we will roll up the largest Republican plurality that the State of California has ever seen."

CALLING OF DELEGATES.

The Golden Gate quartet, which was in attendance, was next called upon to render two selections, after which the

calling of the roll of the delegates was proceeded with.

When the name of Chester J. Rowell was called among the delegates loud cheering came from the insurgent president who form the majority of the convention. The call for the present session was also read by the secretary.

The appointment of Chester J. Rowell as temporary chairman was the next order of business, and was followed by the selection of Charles Dietrich as temporary secretary. Later Frank Devlin was made permanent chairman.

Lyric hall, in which the convention met, was scarcely large enough to hold the 425 delegates, and only a handful of spectators were able to crowd their way into the standing room space at the rear. The delegates were early in assembling, those from Los Angeles, who occupied the place of honor in the forefront, being conspicuous by reason of flaming orange badges accompanying blue ones bearing the name of Johnson, the party nominee for governor. The gathering was marked by the absence of many "war horses" who have figured prominently in Republican state conventions in the past.

Philip Teller, secretary of the State Central Committee, calling the convention to order at 2:30 o'clock.

Strange Things in the News

Life Savers Risk Lives to Save Drowning 'Man,' Who Proves a Dummy; St. Bernard Aids Woman Trying to Kill Self

Dog Saves Woman Who Took Carbolic

JOPLIN, Mo., Sept. 6.—A St. Bernard dog saved the life of Mrs. Frank Stanley here yesterday.

Don, owned by W. A. Driddel of the United States recruiting station here, is the canine. While prowling in a dump of woods near the Third street viaduct, the dog found the woman, unconscious and suffering from the effects of a dose of carbolic acid, taken with suicidal intent. The dog barked, attracted the attention of its owner and the woman was removed to a hospital.

Physicians who examined the woman said she could not have lived long had the dog failed to find her. It is now thought she will recover.

Baby Hurlled From Buggy; Father Held

SPOKANE, Wash., Sept. 6.—Hurlled from the seat of a rig which her father was driving, Mary Radokovitch, aged five, lies in the emergency hospital suffering from what Police Surgeon John H. O'Shea fears are internal injuries. The father, Bill Radokovitch, is held without bonds and charged with drunken driving.

While driving to their home in the afternoon the child fell over the dashboard, between the front and rear wheels passing over her stomach. The father did not know of it until he was stopped by an overpassing block further down the street, according to the story told the police.

Long Swim to Save Cigar Store Indian

NEW YORK, Sept. 6.—Two members of the United States Voluntary Life Saving Corps risked their lives yesterday in a half-mile swim to save the life of what they took to be a man struggling with the rapid tide in the middle of the river.

The life-savers overtook the "swimmer" and grasped the figure's back of the neck, only to discover that it was a cigar-store Indian.

Joy Riders Killed in Auto Smash-Up

TACOMA, Wash., Sept. 6.—Edward Perry, 212 5th avenue, and Miss Gertrude Kirkman, 715 Olive street, Seattle, were instantly killed last night about 10:45 in an automobile smash-up on the Tacoma road, while returning from a ride to Seattle.

Frank Hunter, manager of the Tacoma Motor Car company, and Mrs. Pearl Raymond, a sister of the dead girl and residing at the same address in Seattle, were hurt. It is doubtful if Mrs. Raymond survives.

Miss Kirkman was 23 years old and a daughter of Wilbur P. Kirkman, publisher of a sheet metal factory in this city. Mrs. Pearl Raymond, who was severely injured, is 27 years old, a sister of Miss Raymond and the wife of a Seattle street car motorman.

SPALDING TELLS PEOPLE HE IS CHOSEN NOMINEE

SAN DIEGO, Cal., Sept. 6.—A. G. Spalding late yesterday issued a statement to "The People of California," in which he says:

"Today I received official information from the county clerks of the fifty-eight counties of the state, giving the result of the advisory vote at the recent primary election for the Republican candidate for United States Senator from California. Their official returns show the following results:

"Of the fifty-eight counties of the state, A. G. Spalding has carried thirty-one; John D. Works, twenty-one, and E. A. Moserve six.

"Of the forty senatorial districts Spalding has carried twenty-six; Works thirteen; Moserve, one. Of the eighty assembly districts, Spalding has carried forty-nine; Works, twenty-seven; Moserve, four. Of the 120 legislative districts Spalding has carried 75; Works, 40; Moserve, 5.

"This result makes me the Republican nominee before the Legislature for United States Senator.

Under the spirit as well as the letter of the primary law, assuming that a Republican legislature will be elected in November, I expect to become the next United States Senator to succeed Hon. Frank P. Flint. My campaign is over so far as I am personally concerned.

"I now call on the 65,000 men who honored me with their votes at the recent primary election to explain to Republican candidates for the Legislature their own reasons for voting for me at the primaries. This should be all the further campaigning necessary to ensure my election by a Republican Legislature. My original platform, that I would make no pre-election promises, nor become committed to any special interests, organized bodies or individuals, seems to have had the approval of the people of California. I have not deviated from that platform, nor will I either before or after election to the United States Senate."

Aviator Describes 8471 Feet Fall

DEAUVILLE, France, Sept. 6.—How it feels to fall 8471 feet—one mile and three-fifths—through the air in an aeroplane was told to a crowd of spectators today by Leon Morano, who had that experience Sunday.

"I cut off the ignition of my own accord, with a view to descent," he said, "when the barograph told me I had reached my own record and established a new one. There was no need of going higher, especially as I had begun to feel faint in sailing downward. He machine required such velocity that I became disoriented. My ears were ringing and I felt numbness creeping over me.

"Thinking the speed of descent caused these discomforts, I tried to start the motor when 5000 feet high. The cylinders were gripped and refused to act, having been fouled by the high altitude. All this time the velocity of the descent was increasing. At 1000 feet from the earth the motor worked and I responded to my control, but the propeller revolved so fast as to threaten to throw me out of the machine.

"When I shot off the motor and bent all my attention to landing, so as to avoid an upset, the cover struck my head and my head was as clear as ever. I never felt the slightest fear while I fell, because I had to keep all my wits active."

Wool and Cotton—Fine ribbed, high-necked, long or short sleeves, ankle length. \$1.75 a garment. Wool and Cotton—Fine ribbed. M. do with high neck, long sleeves, and in ankle length. \$2.50 a garment.

Domestics and Wash Fabrics of Quality

Wash Goods, etc.

Cheviots—32 in. wide, in striped patterns; pink, blue or tan; suitable for men's shirts, pajamas or children's wear. 15c yd. Apron Checked Gingham—Assorted checks of blue and white; 27 inches wide. 6c a yard. Long Cloth—Very fine weave, suitable for women's undergarments. A piece of 12 yards at \$1.15 the piece.

Damask, etc.

Washed Mercerized Damask—64 inches wide; assorted patterns; close weave. At 50c a yard. Hemmed Mercerized Pattern Cloths—Border all around, of German make; soft finish, ready for use. Size 22x72 at \$1.30; size 22x90 at \$2.00 each. Napkins to Match—Size 22x22, \$2 a dozen.

Blankets

Twilled Eiderdown Blankets—White with pink or blue border; double bed size, 72x90 inches. \$2.35 a pair.

White Wool Blankets—Double bed size, 72x78 inches; soft and fleecy. An extra fine value at \$2.85 a pair.

10,000 Cakes of

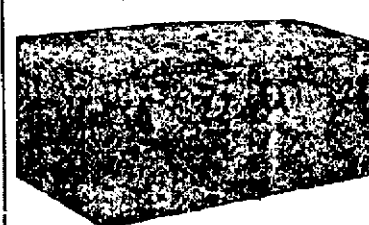

Babbitt's Soap

7 Cakes 25c

Savings in the famous Babbitt's soap! A fortunate buy of 10,000 cakes of this splendid washing soap allows us to offer it, continuing Wednesday morning, at 7 cakes for 25c. This is lower than you can buy Babbitt's soap elsewhere. It will pay the housewife to buy many cakes for the future at this price.

Shirt Waist Boxes

\$1.00 Each

A few more women's shirt waist boxes at \$1 each; less than it would cost you to make one. The box is 27x15x12 inches in size, lined inside with a dainty floral design. It is an upholstered box, and can also be used as a window seat. Covered with cretonne in butterfly, floral and conventional designs. Fitted with brass handles. Light and easy to handle.

Genuine

Austrian Linens

25c each

A very unusual offering of genuine Austrian linens. Scarfs are 18x54 inches; squares, 30x30 in. Have one row of drawn work, hemstitched. Austrian linens such as these are almost invariably sold at 50c each, but here is an offering of genuine Austrian linens at 25c each.

COIN COLLECTORS MEET IN GOTHAM

Convention of American Numismatic Association Called With Many Present.

NEW YORK, Sept. 6.—The 1910 convention of the American Numismatic Association is in session here this week. Nearly a hundred out-of-town members from all over the United States and Canada are in attendance. In connection with the convention, an elaborate exhibition of coins, medals and tokens is displayed in the American Numismatic Society's building. The collections shown range from the most ancient coins down to those of the present day.

There are 2100 specimens of Confederate money and an elaborate exhibition of other currency of Civil War interest, loaned by Ben G. Green of Chicago. A collection loaned by B. H. Collins of Washington includes a complete set of United States cent pieces issued from 1793 to 1857.

Other interesting exhibits are Chinese silver and copper coins, dating back to 600 years B. C., and Japanese shags. The last named are oval bars of silver which passed from firm to firm as checks and bear "shop mark" endorsements of each house.

OLD SAN FRANCISCO COIN.

If O. Granberg of Oshkosh, Wis., shows the greatest collection of privately issued gold coins in the United States. In another collection is a \$5 gold piece issued by the United States assay office in San Francisco in 1852 in the gold rush days. There are also ancient Greek and Roman coins and a collection of 150 gold pieces, mostly of the ancient German principalities. Of more interest is a collection of anti-free silver burlesque coins.

A Reliable Medicine—NOT A NARCOTIC

Mrs. F. Marti, St. Joe, Mich., says: "My little boy, who is now 10 years old, had a severe case of whooping cough. Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Ely's Honey and Tar. In about a week he was cured. It cured the cough as well as the choking and gagging spells, and he got well in a short time. Ely's Honey and Tar has many times saved us much trouble and we are never without it in the house." "Wishart's Drug Store, 19th and Washington streets."

DR. TOM WAI TONG

OAKLAND IS NOW WITHIN SHORT STRIKING DISTANCE OF THE LEADING BEAVERS

BEAVERS AND ANGELS EACH TAKE A GAME UP NORTH

Morning Contest Goes to Dilions While McCredie Gathers the Second One.

PORTLAND, Ore., Sept. 6.—Portland and Los Angeles broke even, the visitors taking the morning game in the presence of 1200 fans, 6 to 5, while the home team saw the Beavers get revenge in the afternoon, 1 to 1.

The feature of the morning game was a trip by Ryan, Olson and Rapp on bases. Casey in 1910. The home team was led off at home and Casey was to bat at first. Olson tried to score from second on the play, but was thrown out at the plate by Dillon. Rapp pitched a steady, steady throughout, while Foster pitched well.

In the afternoon, Naze held the Beavers down for two innings, but took a wild streak in the third, on which four runs were scored. At that time, Naze rallied and was victorious. Los Angeles made its first run in the eighth, when Knap was found for two hits which counted. Score:

LIVELY LIKEWISE HURLS BRILLIANT BALL IN AFTERNOON

Daring Work of Maggart and Wares on Bases Help Locals Win.

Oakland 4, Sacramento 1.

Men of brawn and toil made up the major part of the great big crowd that was on hand in the afternoon over on the San Francisco side of the big drink and nearly every Tom, Dick and Harry of them has sympathy with the poor fellows that get the pay check from Charley Graham, for the least little play the Senators brought forth long and continued cheer while if an Oak made a fine play or a cracking good hit all a lot was a wee little bit of a hooray from some fan or fanette who was here to meet for the Oaks and didn't care who knew it.

All the noise and bluster for the evening didn't freeze Mr. Jack Lively and his eight working team mates, for they kept after those Senators enough shoe and had handed them another beating as they did on Sunday and in the morning, only with this difference, the Senators made one lone tally.

OAKS START TALLYING IN THE THIRD INNING.

The first, second and third innings were devoid of features as far as the line was concerned for the Senators and likewise the first and second for the Oaks, but in their half of the third inning—well, let's say with a game foot at that, spike the pan. Getting away from the plate on a bump with a flying start he went out the ball to Van Buren's station by a headlong slide into the bag. Wares bunted in front of Johnny Fitzgerald, who made a beautiful stop, but in a awful heave to first and Maggart got as far as third base while Clyde reached second. Willie Hogan, always there in the pinches, poked a long fly to Briggs in right center and the lame man reached the plate.

In the fourth inning the Senators went skyward and the Conquerors landed two at the last stopping place. After Wolverton had popped out on a dinky little fly, Cuthaw hit to Perry and when Hawk dropped the ball the second sacker was safe at first. Swander fanned, but Spelman, who is always trying, got a little too anxious and let the ball get by him, Eddie revolving first and Cuthaw getting to second. Mitzie combined a single into right and Cuthaw registered and Swander got over when Lively hit a liner out to Helster.

OAKS GATHER ONE MORE IN THE SEVENTH INNING.

Wares was the man, or boy we should say, that crossed the rubber in the seventh, for the Oaks and he did it because he was feet of foot more than anything else. It was him that opened the inning, never getting even a hand clap except from a few, when he bent out a cleverly placed bunt. A wild pitch on the part of Johnny Fitzgerald let him go unopposed to second. Hogan hit a screamer into right but Shinn got it before Willie reached first and he was out, Clyde getting to third. Carroll next in line, sliding around until Italy called four bad ones and Frankie recommended to first. With a whoop and a yell Clyde tore for home and Frankie for second and both made the places they sought.

Carroll then got more desperate and stole third and almost stole home, but Spelman made a clever stop of Fitz's throw and just did get Carroll. That was all for the Conquerors but it was more than plenty.

SENATORS GET ONE AFTER FORTY-TWO INNINGS.

Charley Graham's hired men did manage to land a tally after forty-two innings of goose eggs in the eighth inning, for they were truly earned run at that. Fitzgerald first up, swung his head off at third of Lively's shots, but missed them all so it was back to the drinking time for him. Shinn, the tonorial artist, and it was a truly earned run at that. Fitzgerald first up, swung his head off at third of Lively's shots, but missed them all so it was back to the drinking time for him. Shinn, the tonorial artist, and it was a truly earned run at that. Fitzgerald first up, swung his head off at third of Lively's shots, but missed them all so it was back to the drinking time for him. Shinn, the tonorial artist, and it was a truly earned run at that.

Wolverton and McCredie Are the Generals in This Week's Series

Breezy Notes of the Diamond

Oakland has certainly played great baseball during the last two weeks past and the record against the Senators is a pretty good one. Winning eight of nine games played is going great guns, then again winning two double games and the northern team is a performance to be proud of.

Today the team is ready for the big comes tomorrow and if the Oaks don't fall they will be the winners of the league and take first in the batting line to show. Computing their percentage along with that of Portland today they stand like this:

Club	Won	Lost	Pct
Oakland	80	61	.567
Portland	78	63	.553
Oakland	77	72	.514
Los Angeles	78	81	.489
Sacramento	54	88	.381

have brought discredit to the game. A good many fans are sure to feel that the Oaks did better than they did on Sunday.

The judge was talking about the matter yesterday and said, "I am inclined to be lenient with Wares after the way he went of the players late in the game, and at the ball field. Barrow, right, didn't do baseball any good, nor did those actions of Maggart the other day. I am not going to report on his case and if he deserves punishment he shall receive it."

Pacific Coast League

Sacramento was all to the bad in the third inning and rolled up three errors. Perry dropped a fly ball, Burns booted one and Van Buren let an score with a wild heave to second.

Pacific Coast League

Frank Bodie, the leftfielder of the San Francisco team, is out for the world's record in a home run and more.

Yesterday he found the ball for another round-the-circuit hit, making the twenty-fifth he has made so far this season.

Pacific Coast League

Briggs made the one stop catch of the day, although Maggart was right behind him. After Wolverton had almost put the ball out of the lot in the second inning, Briggs went back to the fence and speared Cuthaw's drive with one hand. Maggart took a lin from the bat and Van Buren in the fourth at looked like a double when the ball left the big stick.

Pacific Coast League

Some of the fans at a Wolverton because he works Lively a lot more often than the others. It is all nonsense, for several reasons. The first is that he is a home run and more.

NELSON PITCHES GREAT AGAINST SENATORS FOR OAKS

Wolverton Scores Only Run by Driving Ball Over the Fence.

Oakland, 1; Sacramento, 0.

Oakland duplicated its record of Sunday against the Senators, with this one exception: Graham's men got one lone tally in the two games yesterday, but it was far from being enough to cut any kind of a figure in the result of either game.

On our side of the big drink before the serving of luncheon it was a great blunder that gave homage to the all conquering Oaks and they saw the links about loose on the home grounds caused by the fact in which Harry Nelson, ably assisted by Harry Wolverton, won the first score being one for us and nary a tally for the Senators, making their third shut

In the month of May 1908, according to testimony brought out to the coroner's inquest, the trial of the contest of a will of the late John P. Butters, which was resumed at the probate court of the county of Alameda, Sept. 5, 1910, Mrs. Viola Smith, wife of the deceased, testified that she was the wife of John P. Butters, who was a resident of the city of Oakland, Cal., and that she was the mother of four children, three of whom were living at the time of her husband's death. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal.

NEVER THE SAME AFTERWARD

Mrs. Butters was never the same after the death of her husband. She testified that she was a woman of great strength and courage, and that she was a member of the board of directors of the First National Bank of Oakland, Cal. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal.

HEARING WAS DELAYED

The hearing was delayed for several days. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal. She testified that her husband was a man of great wealth, and that he was a member of the board of directors of the First National Bank of Oakland, Cal.

Arthur Claassen Gives Luncheon to Friends

As a farewell to several of his friends, Arthur Claassen, who is leaving for New York in a day or two, gave a luncheon at the Hotel California, yesterday afternoon. He was accompanied by his wife and daughter, and by several of his friends. The luncheon was a very successful one, and was attended by a large number of guests.

Pitches Last Game and Breaks His Arm

NEWARK, N. J., Sept. 6.—In pitching the last game of the West Jersey League season yesterday, Fritz Treu, a local amateur ball player, lost his right arm in a place and probably will never be able to play again.

Three Months Ago in the First Game

of the season, Fritz Treu was a pitcher, and he was a very good one. He was a very good pitcher, and he was a very good one. He was a very good pitcher, and he was a very good one.

CONDITION OF ABE RUEF TOLD TO COURT

Four Physicians Disagree With Dr. Topping as to Effect of Prison on Ex-Boss.

COUNTY JAIL BRANDED AS SHAME, BY WITNESS

Former Politician Is Suffering From Heart Trouble and Lung Congestion.

SAN FRANCISCO, Sept. 6.—The taking of testimony in regard to the physical condition of Abraham Ruef at present on bail pending appeal was begun today before Superior Judge Lawlor in connection with the former boss' efforts to remain at liberty until the higher court has determined whether or not he is entitled to a new trial on the charge of bribery.

BRANDS IT SHAMEFUL

At his last calling of the case, Attorney Thomas Dozier was himself ill, and this morning, although pressed by the prosecution, he was unable to attend. He was, however, represented by his associate, Mr. J. H. Topping, who testified that Ruef was in a very bad state of health, and that he was suffering from heart trouble and lung congestion.

FOUR OTHERS TESTIFY

On behalf of the defendant, four witnesses testified to having seen Ruef in a very bad state of health. They testified that he was suffering from heart trouble and lung congestion, and that he was in a very bad state of health. They testified that he was suffering from heart trouble and lung congestion, and that he was in a very bad state of health.

WANTED IN ARREST

Assistant District Attorney Perry, who desires of being lenient with the illness of Attorney Dozier, stated that he was not in a position to do so. He stated that he was not in a position to do so, and that he was not in a position to do so. He stated that he was not in a position to do so, and that he was not in a position to do so.

Excursion Passengers See Stag Swimming

NEW YORK, Sept. 6.—Passengers who took an excursion yesterday on the Hudson River steamer Hendrick Hudson reported today on their return that they had seen a large stag swimming in the river near Tuxedo.

EGYPTIAN DANCE STARTLES THEATER-GOERS BY DARING AND UNIQUE INTERPRETATION

Newest of the fad dances which is shortly to be introduced into the United States.

KATA WIESENTHAL

CREATE FUROR BY ODD DANCE

NEW YORK, Sept. 6.—After having startled the usually staid senses of the German theater, the famous Wiesenthals, sister Anna and Katha, who created a furor of comment in Berlin during the last summer, now plan to make their debut in this city. They will perform the Egyptian dance, which is a new and daring interpretation of the old Egyptian dance.

PLAN WESTERN TRIP

Word has been received that the sisters will soon commence a tour of the West, where they will specialize on the Egyptian dance, beginning in San Francisco and ending in Los Angeles. They will be accompanied by a large band of musicians.

INTEREST THE SAME.

From the ancient film scenery which the Salome of history wore and which has gradually been exaggerated to the extent of almost nothingness, the Wiesenthals have endeavored to adapt their graceful motions with somewhat of an improvement. The result is that their dancing has caused wide comment not only throughout the empire but extending to this country as well.

Evangelist to Begin Series of Meetings

Y. J. McDonald, the noted evangelist, will begin a series of meetings at the Light House mission, 266 Ninth street, tomorrow night. Accompanying him is E. Wilson, the well-known singer and several other workers.

Alameda Pastor Gives Lectures of Interest

ALAMEDA, Sept. 6.—Rev. J. R. Perkins, pastor of the First Baptist Church, gave a lecture of interest on the life of Christ, which was well attended.

**AUTHORIZES USE
OF DEATH TRA**

**Valdez-Fairbanks Road
Be Maintained by the
Government.**

VALDEZ, Alaska, Sept. 6.—(M. P. F.) Richard L. U. S. A. was en route to Alaska arrived last night from Nome. Mayor Richardson who was sharply criticized for his decision he refused to authorize the construction of a government road to the gold fields. The future was then uncertain, says that permanence of the gold camp was established and that he would build the road as soon as possible. The commissioner denies the report that the Valdez-Parbanks trail has been abandoned as a result of the completion of the Valdez-Cordova road. During the summer the government has extended a trail for Parbanks to a station with the road. The trail will be open daily to trans hurchout the summer fording a new entrance to the main gold fields. The fact that the road has been built that the families have been frozen to death in winter journeys was not to be maintained.

HIT BY BALL AND KILLED

SHOTS 'YOU' LE' WHEN ROOSEVELT ENDS SPEECH

Colonel Asked Who Pays for Trip and Replies That Magazine Does.

UGLIER AND SHORTER WORD IS THEN PASSED

Former President Helps to Eject Intruder from the Platform.

FARGO, N. D., Sept. 6.—A man who fought his way to the front of the crowd at the Roosevelt speech in Fargo, N. D., yesterday, was ejected from the platform by the former president. The man, who was identified as a member of the "Black Legion," was seen to be armed with a revolver. Roosevelt, who was speaking at the time, turned and pointed towards the man, who then fled from the platform. The crowd, which was estimated to be one of the largest in the city, was in a state of excitement. The man's actions caused a momentary confusion, but Roosevelt quickly regained control of the situation. The man was later seen running through the crowd, and was eventually captured by the police. He is now being held in custody.

PUSHES WAY THROUGH CROWD

Those on the platform pressed around the stand and in a moment it was closed in by a surging and struggling mass of men and women. Some of the police officers in the crowd tried to get near enough to see Colonel Roosevelt at short range and shake his hand. The man who had been ejected from the platform was seen to be pushing his way through the crowd, trying to reach the speaker. The crowd was so dense that it was difficult to move. The police officers were trying to keep the crowd from getting too close to the speaker. The man was eventually pushed back by the police.

THE QUESTION ANGERED

The question angered Colonel Roosevelt and his face showed it. He asked who paid for the trip, and the man replied that the magazine did. The man's answer caused a momentary silence in the crowd. Roosevelt then turned back to the crowd and continued his speech. The man was seen to be looking at Roosevelt with a determined expression. The crowd was still in a state of excitement. The man was eventually pushed back by the police.

SWALLOWED UP IN CROWD

An effort was made to find the man, but all traces of him were lost. No one of those who had seen him was able to describe him. The man was eventually lost in the crowd. The crowd was still in a state of excitement. The police officers were trying to keep the crowd from getting too close to the speaker. The man was eventually pushed back by the police.
